Subject: questions for PCB cleanup sites

Hi Cynthia! Here's my list of questions for the sites so far. I'll be leaving on vacation after today so this is not a rush, just when you have time.

Thanks,
Karen

1. Active POLA sites – San Pedro and Wilmington
 - a. San Pedro site – is POLA testing areas immediately adjacent to the Site for PCBs? (this topic is mentioned in a paragraph in the conditional approval letter) (what areas are immediately adjacent?)
 - b. Wilmington – shall I reach out to Peter Garcia (DTSC) about testing for other COCs?
2. Inactive POLA sites – has deed restriction/LUC been adopted or does EPA need to follow up with the State or POLA on this?
3. UPRR Leo Ave.
 - a. The Nov. 2018 RAW Cynthia commented on proposes to transport excavated hazardous waste soil by rail instead of truck – was this suggested by EPA? (it counts as a greener cleanup measure)
 - b. Status of UP's revision to the RAW to address comments in EPA's April 2019 letter? Is another sampling event planned to test for other COCs?
 - c. Any notes from discussion w/ Steve on dual agency oversight?
 - d. How was Cynthia coordinating with the City of San Jose for comments? (or was Mark Johnson coordinating with them?)
